AccessCentral4U™ Patient Support Services

This guide describes how AccessCentral4U can help patients receive their prescribed Daiichi Sankyo medications.

Patient support online and by phone

Every patient's treatment journey is personal and uniquely their own. That is why Daiichi Sankyo AccessCentral4U was created—to bring each patient's needs into focus. Our goal is to help patients gain access to the medication, support, and information they need to start and continue their treatment journey.

Monday–Friday, 8:00 AM–6:00 PM ET*
*Excluding holidays.

Help for getting medication

Sometimes additional steps are required by the insurance company before a patient can receive the medicine they have been prescribed. AccessCentral4U may be able to help with these steps.

Frequently asked questions about health insurance coverage

The health plan requires approvals before patients can get their medicine. Can AccessCentral4U help?

An AccessCentral4U Case Manager can provide doctors and their office staff with approval assistance, including benefits verification and denials and appeals support templates.

Will AccessCentral4U work directly with the doctor's office?

We are happy to work directly with doctors and their office staff. Simply visit **DSAccessCentral4U.com**, or call an AccessCentral4U Case Manager at 1-866-437-4669, Monday–Friday, 8:00 AM–6:00 PM ET.

Help with paying for medication

If a patient cannot afford their Daiichi Sankyo medication, AccessCentral4U may be able to help, regardless of whether or not the patient is insured. Be aware that financial assistance options vary depending on which Daiichi Sankyo medication was prescribed.

Our medications also have copay assistance programs to help eligible patients with out-of-pocket costs for their prescriptions, regardless of income.

Frequently asked questions about affording medication

Q

Does a patient's income level matter for the copay program?

There are no income limits with the copay programs. To learn more about program requirements, visit DSAccessCentral4U.com.

A

A patient is not eligible if their prescriptions are paid by any state or other federally funded programs, including, but not limited to, Medicare Part B, Medicare Part D, Medicaid, Medigap, VA, or TRICARE, or where prohibited by law.

Q

What if the patient cannot afford their medication?

Depending on which medication is prescribed, a patient may be eligible for Patient Assistance Programs. Patient Assistance Programs may provide medication at no cost to patients who qualify. Eligibility rules apply. Please visit our website, DSAccessCentral4U.com, or call an AccessCentral4U Case Manager at 1-866-437-4669, Monday–Friday, 8:00 AM–6:00 PM ET, for more information about eligibility.

A

Help with information about a medication

Patients can access Daiichi Sankyo product pages from the AccessCentral4U website. On the product pages patients can find support and information on the medication their doctor prescribed.
